5 ANSWERS FROM PREVIOUS PUBLIC AND ALDERMEN'S QUESTION TIME

Meeting Date and Item No.	File No.	Question	Answer	Officer Responsible
25 Feb 2013 9.1	DA0470 /2010	<p>Aldermen's Question: Alderman A L Waddle asked:</p> <p>1. Regarding the text message received by Aldermen in regards to alleging illegal parking, would Council be pursuing this matter?</p>	<p>Response provided at meeting:</p> <p>The General Manager took the question on notice, requested that the text message be forwarded to him to assess possible action.</p> <p>Further reply - Council staff have contacted the complainant and organise to meet to discuss their concerns. Council staff will liaise with both the business and Tasmania Police concerning the ongoing parking problems in this area.</p>	Michael Stretton

<p>25 Feb 2013 9.2</p>	<p>SF0975 SF2346</p>	<p>Aldermen's Question: Alderman J D Ball asked:</p> <p>1. Whether Council is planning to hold any Council Meetings/Forums in the Municipality's outlying communities over the coming year? Areas suggested for future visits were, Blessington, Dilston, Patersonia/ Nunamara.</p>	<p>Response provided at meeting:</p> <p>The General Manager took the question on notice.</p> <p>Further reply -</p> <p>On 31 January 2011 Council reviewed the April 2008 decision to hold meeting forums in outlying areas of the Launceston Municipal Area. Council resolved to ask the GM to make arrangement for events similar to the City of Ballarat's free bbq as a means of engaging with the outlying communities of Launceston. One such bbq was held on Sunday 20 November 2011- at Lilydale as part of the Lilydale Village market. Limited numbers attended.</p>	<p>Rod Sweetnam</p>
--------------------------------	--------------------------	---	--	-------------------------

			<p>It was considered this process did not deliver effective community engagement. The Council has increasingly adopted contemporary techniques for community engagement including: Facebook, Twitter and, in particular, Your Voice Your Launceston (YVYL). Since the inception of YVYL approximately 18 months ago, there have been 6300 site visits. Council has 795 Launceston residents registered on the site and 220 of these have made comments on issues posted.</p> <p>It is considered that by engaging with the Community via social media and Web based processes that a broader cross section of people with a greater socio economic diversity can be connected with.</p>

Under the provisions of the Land Use Planning and Approvals Act 1993, Council acts as a Planning Authority in regard to items 12.1 - 12.2

12 PLANNING AUTHORITY

12.1 Launceston Interim Planning Scheme 2012 - Report to the Tasmanian Planning Commission pursuant to Section 30J of the Land Use Planning and Approvals Act 1993

FILE NO: SF3854, SF5038

DIRECTOR: Michael Stretton (Director Development Services)

DECISION STATEMENT:

To endorse a report to the Tasmanian Planning Commission pursuant to Section 30J of the *Land Use Planning and Approvals Act 1993* in respect of the Launceston Interim Planning Scheme 2012.

PREVIOUS COUNCIL CONSIDERATION:

- 8 October 2007 – Council adoption of the Draft Launceston Planning Scheme Issues Paper for community consultation
 - 17 March 2008 – Council consideration of the Draft Launceston Planning scheme Issues Paper public submissions
 - 4 October 2010 – Council adoption of City Strategic Statement

-

12.1 Launceston Interim Planning Scheme 2012 - Report to the Tasmanian Planning Commission pursuant to Section 30J of the Land Use Planning and Approvals Act 1993...(Cont'd)

RECOMMENDATION:

1. That in respect of the representations made on the Launceston Interim Planning Scheme 2012, the following table, which is to be read in conjunction with the representations, is endorsed pursuant to Section 30J of the *Land Use Planning and Approval Act 1993* as the Planning Authority's view:
 - a) on the merit of each representation in relation to a local and common provisions in the interim planning scheme;
 - b) the need for modification of the interim planning scheme in the light of the representations;
 - c) the impact of representations on the scheme as a whole; and
 - d) the operation of the interim planning scheme:

	Issues
	1. Invermay/Inveresk Flood Precinct - The Eastern residential area above the inundation line needs to have it's predominate residential and historic character recognised with suitable provisions to protect those traits and prevent encroachment of industrial/commercial uses from impacting on residential amenity including noise, traffic, odours and appearance of buildings.
	2. Zone of 10-12 South Street, Churchill Park end of Forster Street, and Industry backing South Street residential properties (eg. 4 Forster Street). Existing and increasing land use conflict between the existing commercial/industrial use on this site and adjoining residential properties. Recommend removal of spot zone and inclusion in the surrounding residential zone and stricter controls.
	Representation Merit and Impact
	1. Existing residential development in Invermay is primarily zoned General Residential. It is a dedicated residential zone intended to retain the prevailing residential character of the area.
	2. Parts of Invermay are characteristically mixed use and the zones used are intended to retain and protect the existing character of those areas as well as to provide amenity protection.
	Modifications/Actions
	No change required.

12.1 Launceston Interim Planning Scheme 2012 - Report to the Tasmanian Planning Commission pursuant to Section 30J of the Land Use Planning and Approvals Act 1993...(Cont'd)

2	Representor
	Barry Williams, Cement Concrete & Aggregates Australia
	Issues
	Congratulates LCC for exempting level 2 activities from the water quality and biodiversity codes as these are issues covered in the assessment done by the Environmental Protection Authority under the Environmental Management and Pollution Control Act 1994.
	Representation Merit and Impact
	Noted
	Modifications/Actions
No change. Retain existing level 2 exemptions in the Water Quality and Biodiversity Code.	

3	Representor
	R and M Otley
	Issues
	Zone of 105 Abels Hill Road, St Leonards. Objects to zone change from Rural Resource to Rural Living due to ability to increase residential density and the associated impacts of that. Request retention of Rural Resource zone.
	Representation Merit and Impact
	This property as well as other properties along Abels Hills Road have a strong rural living character. Their proximity to the urban area and access to services makes them well suited for Rural Living zone. It is recommended that these properties be zoned Rural Living however it's subject to further work including amending the Northern Regional Land Use Strategy then amending the planning scheme.
	Modifications/Actions
Prepare case and support amending the Northern Regional Land Use Strategy to broaden the Rural Living objectives and alter the zone to Rural Living via a planning scheme amendment process.	

12.1 Launceston Interim Planning Scheme 2012 - Report to the Tasmanian Planning Commission pursuant to Section 30J of the Land Use Planning and Approvals Act 1993...(Cont'd)

4	Representor
	Robert Burns
	Issues
	38609 Tasman Highway, Targa (CT vol 157010 Fol 4) is currently zoned Open Space which reflected its historic recreation use. It has not been used for that purpose for at least two decades. Requests Rural Living zone.
	Representation Merit and Impact
	There is Myrtle Park and other parks within the area that provides adequate recreation opportunities for the local community. Council's Open Space Strategy 2007 does not identify this land as open space. Furthermore, the strategy recommends that as the area is not experiencing any major population growth, there is no need to acquire more public open space.
	The Rural Living zone is not appropriate because the land does not meet the criteria for that zone outlined in the Launceston Residential Strategy. The area is characteristically rural and the prevailing zone is Rural Resource.
	Modifications/Actions
Change the zone of 38609 Tasman Highway, Targa from Open Space to Rural Resource.	

5	Representor
	J Bushby
	Issues
	Zone of 188 Outram Street, Summerhill - zoned Environmental Living. Objects to zone. Land on same contour as this land is zoned Low Density Residential. See also representation number 62.
	Representation Merit and Impact
	Both the Environmental Living and Low Density Residential zones allow for subdivision. The outstanding issue that will affect subdivision and requires resolution, regardless of which zone is applied to this, is the achieving adequate frontage to a road.
	Modifications/Actions
No change, retain Environmental Living zone.	

12.1 Launceston Interim Planning Scheme 2012 - Report to the Tasmanian Planning Commission pursuant to Section 30J of the Land Use Planning and Approvals Act 1993...(Cont'd)

6	Representor
	Ian Abernathy, Pitt and Sherry
	Issues
	Zone of 20, 30, 34, 44, 62 and 64 Dilston Road, Dilston - currently zoned Rural Living. Requests Village zone. Reasons - central location, the land has two road frontages, it will improve the sustainability of the community by encouraging a greater range of community facilities, and it's consistent with the regional strategy.
	Representation Merit and Impact
	The concept of having a Village zone within Dilston is supported however further analysis of the size and location for the zone is required.
	Modifications/Actions
Conduct strategic analysis for a Village zone in Dilston.	

7	Representor
	Ian Murfett
	Issues
	Zone of 2 Rosslyn Road, Invermay (CT vol 103679 fol 72) - currently zoned Inner Residential. Requests commercial or similar type of zone. Land has had a warehouse/workshop onsite for several decades.
	Representation Merit and Impact
	Property has a long standing commercial history. Support rezoning the land.
	Modifications/Actions
Rezone 2 Rosslyn Road, Invermay to Commercial.	

12.1 Launceston Interim Planning Scheme 2012 - Report to the Tasmanian Planning Commission pursuant to Section 30J of the Land Use Planning and Approvals Act 1993...(Cont'd)

8	Representor
	Ian Abernathy, Pitt and Sherry
	Issues
	Zone of 2-20 Cowley Street, White Hills and adjoining land considered for Rural Living in the Launceston Residential Strategy. Currently zoned Rural Resource. Request Rural Living zone due to its location close to Launceston, availability of public services and the existence of a scattered settlement.
	Representation Merit and Impact
	It is recommended that this property be zoned Rural Living, however, the recommendation is subject to further work including amending the Northern Regional Land Use Strategy then amending the planning scheme.
Modifications/Actions	
Prepare a case and support amending the Northern Regional Land Use Strategy to broaden the Rural Living objectives and alter the zone to Rural Living via a planning scheme amendment process.	

9	Representor
	Jack Birrell, Birrelli Architects
	Issues
	127 George Street, Launceston - Request inclusion in the Launceston CBD Parking Exemption area. Property is wholly located within Urban Mixed Use zone. Currently mix of uses onsite. Recommends that this and other properties within the Urban Mixed Use zone along this part of George Street and part of York Street be included.
	Representation Merit and Impact
	The representation has merit and it is recommended that as the site is located within the CBD area, the boundary of the car parking exemption area to be reviewed.
Modifications/Actions	
Move car parking exemption area boundary to include properties 125, 127, 135,137, 143 and 145 George Street and 19-21, 23-25, 31 and 41 York Street, Launceston.	

12.1 Launceston Interim Planning Scheme 2012 - Report to the Tasmanian Planning Commission pursuant to Section 30J of the Land Use Planning and Approvals Act 1993...(Cont'd)

10	Representor
	Greg Johnston
	Issues
	General Industrial. Under previous planning scheme caretakers dwelling was permitted in the Industrial zones. It is prohibited now. For better security and site management it is recommended this use be included as a discretionary use in the zone.
	Representation Merit and Impact
	Caretakers dwellings are permissible in the interim scheme, it's the mechanism that is different. There is no separate use class defining a caretakers dwelling because it is a subservient use. Therefore a caretakers dwelling is assigned the use class of the business it is associated with.
Modifications/Actions	
No change required, the interim scheme allows for caretakers dwellings. The representor has been advised accordingly.	

11	Representor
	Rebecca Green, PDS
	Issues
	Zone of 240 Vermont Road, Mowbray - currently zoned Rural Resource. Request General Residential zone. The site is close to the Ravenswood and Mowbray shopping precincts and is fully serviced. The site has a higher ranking under the LCC residential strategy than many other areas that have been zoned General Residential.
	Representation Merit and Impact
	The land is sloping, is adjacent to the railway track and is located within the Scenic Management area. Low Density residential could be considered however, as there is sufficient residential land zoned in this area it is recommended that the existing zone be retained.
Modifications/Actions	
Existing zone to remain at this time.	

12.1 Launceston Interim Planning Scheme 2012 - Report to the Tasmanian Planning Commission pursuant to Section 30J of the Land Use Planning and Approvals Act 1993...(Cont'd)

12	Representor
	Mr and Mrs Roberts
	Issues
	Zone of 16-18 Reuben Court, Kings Meadows - currently zoned part Inner Residential and part zoned General Business. Request that whole of property be zoned residential to protect residential amenity.
	Representation Merit and Impact
	Not Supported at this time. Retain existing zoning.
	Modifications/Actions
The existing zoning is to remain at this time, however, the Council intends to review the zoning of this site as part of a separate planning scheme amendment process.	

12.1 Launceston Interim Planning Scheme 2012 - Report to the Tasmanian Planning Commission pursuant to Section 30J of the Land Use Planning and Approvals Act 1993...(Cont'd)

	Issues
	<p>Particular Purpose Zone 7 - Boags Brewery Issue - Boags Brewery is a level 2 activity. Condition 17 of their Environmental Protection Notice states: 17(a) Noise emissions from the activity when measured at any domestic premises in other ownership and expressed as the adjusted time average A-weighted sound pressure level must not exceed: 55 dB(A) between the hours of 0700 and 1800; 50dB(A) between the hours of 1800 and 2200; 46dB(A) between the hours of 2200 and 0700.</p> <p>There maybe a conflict with this EPN and clause 38.3.1 where the acceptable solution states:</p> <p>A1 Noise levels at the boundary of the site will not exceed: 50dB(A) day time; and 40dB(A) night time; and Intrusive noise will not exceed 5 dB(A) above background.</p>
	Representation Merit and Impact
<p>The representation has merit and it is recommended that the Council review clause 38.3.1 and other noise clauses in the interim scheme. This will include rewording the noise clause to make the acceptable solution apply to permitted uses only and add further assessable criteria to the performance requirement. Additionally, it is proposed to reorganise use tables in the business zones, particularly where residential is permitted, to make potential noise generating uses discretionary.</p>	

12.1 Launceston Interim Planning Scheme 2012 - Report to the Tasmanian Planning Commission pursuant to Section 30J of the Land Use Planning and Approvals Act 1993...(Cont'd)

	<p>Modifications/Actions</p> <p>Reorganise use tables in the Particular Purpose Zone 2 - Coats Patons Complex, Particular Purpose Zone 3 - Seaport, Particular Purpose Zone 4 - Inveresk Site, Particular Purpose Zone 5 - University of Tasmania Newnham Campus, Particular Purpose Zone 6 - Prospect Business Precinct, Particular Purpose Zone 7 - Boags Brewery, Urban Mixed Zone, Local Business Zone, General Business zone, and Central Business Zone to have activities that are unlikely to produce noise listed as permitted, and noise generating activities listed as discretionary. Reword clauses 15.3.1 A3, 20.3.1 A2.1 and A2.2,21.3.1, A3, 22.3.1 A3, 33.3.1 A3, 34.3.1 A3, 35.3.1 A3, 37.3.1 A3, 38.3.1 A1 to say for no permit required and permitted uses only. In clause 38.3.1 A1 also include the words 'or if the noise levels for a level 2 activity will not exceed the noise limits specified in the Environmental Protection Notice.' Reword clauses 20.3.1 P2, 21.3.1 P3 and 22.3.1 P3 to say it must be demonstrated that the amenity of sensitive uses within the surrounding area will not be unduly impacted upon by noise from operations or deliveries to and from the site.</p>

	Market to be included as a use permissible in the Community Purpose zone and Recreation zone.
	Representation Merit and Impact
	A market is classed within the General Retail and Hire use class in the Scheme. This use is prohibited in both zones which is an oversight.
Modifications/Actions	
Include General Retail and Hire with a qualification for market and art gallery only as a discretionary use in the Community Purpose zone and General Retail and Hire for market only in the Recreation zone.

	Zone of 570 Blessington Road, White Hills - currently zoned Rural Resource. Supports the Rural Living zone. Requests Tourism accommodation use to be possible in either zone
	Representation Merit and Impact
	Tourist accommodation, defined as Visitor Accommodation in the Interim Planning Scheme is a use that is possible within the Rural Resource and Rural Living zones, subject to Council approval. It is Council's desire to have this land in the Rural Living zone.
Modifications/Actions	
Support alterations to Northern Regional Land Use Strategy to broaden scope of Rural Living then once approved, alter zone via planning scheme amendment process.

	6-16 Fawkner Street, Kings Meadows - confirm that current scheme does not prevent level 2 activity onsite, that cheese making is a permissible use and any other impediments that the EPA should know about with regards to issuing an EPN for the use.
	Representation Merit and Impact
	6-16 Fawkner Street, Kings Meadows is zoned Commercial. Cheese manufacturing is classed as Resource Processing which is a prohibited use in the Commercial zone. Manufacturing is a preferred activity in the Industrial zones, not the Commercial zone. The cheese factory does have existing use rights and can continue to operate as a non-conforming existing use on the site. The scheme provides limited scope for improvements.
Modifications/Actions	
No change to the Commercial zone.

	Issues
	1. Landscaping provision for commercial development to be completed at the time of a certificate of occupancy is issued. 2. Clause 10.4.4.8, acceptable solution for a lot to be not more than 400m from a bus stop should be an objective only.
	Representation Merit and Impact
	1. The timing of when landscaping is installed is typically applied by planning permit condition. At present it's to be installed within 3 months of the use commencing. 2. This is an acceptable solution. Where the subdivision cannot meet this, there is the associated performance criteria.
Modifications/Actions	
1. No change to scheme however, the Council will review its current practice. 2. No change to the scheme.

	Zone of 163 Poplar Parade - currently zoned open space, request low density residential zone.
	Representation Merit and Impact
	This is strategic land for open space, however, only a linear corridor with a minimum width of 50 metres is required to link the existing parks in the area. There is a dispensation application currently being considered by the Tasmanian Planning Commission (TPC) and it is appropriate to await the outcome of this application.
Modifications/Actions	
No action at this time. Await TPC decision on dispensation application.

	1. Clause 26.4.2 (iii) requires that house setbacks to the road meet clause 26.1.2 A2. However it will not allow subdivision where an existing house is closer than the acceptable solution. Requests that the performance criteria excludes existing boundaries.
	2. Clause 26.4.2 P1 f (ii). Requires Section 71 applied to new lot to prevent house being built. Request that this is removed and the discretionary provisions for a dwelling apply.
	Representation Merit and Impact
	1. Agree practically impossible to meet. 2. This restriction is considered to be necessary to prevent contrary objectives from occurring that is the incremental subdivision of land for housing development.

	Representation Merit and Impact
	Relbia has infrastructure constraints, such as the width of Glenwood Road that has determined the density for the area. The 4ha minimum lot size also preserves the future capacity of the area for urban expansion.

To be clearer, reduce the car parking requirement by 10% and make the acceptable solution requirement 100% of carparking to be met</p> <p>3. E6.1 Houses - a lot of people would park their bike in a shed or uncover area on the veranda etc. Why is a dedicated space necessary.</p> <p>4. E6.1 P1 - performance requirement for bikes. Very difficult to provide concrete figures to demonstrate compliance. Recommended bike provision be deleted</p> <p>5. E6.6.3 Taxi drop off and pick up. Recommended deleted. Taxis prefer drop off, pick up areas rather than spaces they have to back out of.</p> <p>6. E6.6.4 Motorbike - recommend deleting. Like bikes, riders can utilise many areas to park, they don't require dedicated spaces.</p> <p>7. E6.7.2 - Design and Layout of Parking - carparking behind the building line, which usually means at the back of the building, is out of public view and not likely to be used.</p>

Issues
<p>8. E6.7.3 Car parking Access, safety and security acceptable solution - unclear. Does it mean that large car parks eg. Coles, Kmart have to be secured or be discretionary.</p> <p>9. E6.7.4 Parking for Persons with a Disability - this section needs re-writing because it implies that all uses, including houses, must provide a disabled car space.</p> <p>10. General Residential zone - restrictive objective - 400m rule from activity centre for units - doesn't take into account topography and other factors and limits housing diversity in the suburbs.</p> <p>11. Clause 10.4.2 P1.2 - minimum site area per unit kills architectural flair and innovative design solutions. Unnecessarily restrictive.</p> <p>12. Clause 10.4.4.8 - covers matters that developers have no control eg. distance from bus stop.</p> <p>13. Clause 10.4.4.9 A1 - odd clause, unclear intended outcome. Subdivision will create new road particular where presumption is against internal lots.</p> <p>14. Requiring Traffic Impact Assessment for 40 vehicle movements per day very restrictive and adds unnecessary expense to the cost of an application - \$2000- \$5000. Suggest requiring TIA for only major developments.</p> <p>15. Contradictions in definitions eg. Gymnasium defined under Sport and Recreation yet Table 6.1 it is Community Meeting and Entertainment. Residential definition too broad.</p> <p>16. Lilydale Rural Living - dropped out of Interim scheme. This is much needed and should be reinstated.</p> <p>17. Relbia - Development Plan be deleted, it is not likely to become the next suburban density area for Launceston. Request removal of minimum lot size of 4ha, or at least a reduction to 2ha. Reasons objective at odds with lot size requirement objective that goes beyond implements strategy timeframe of planning scheme, Relbia well suited to higher density development, better utilisation of infrastructure.</p> <p>18. 	2. Maps incorrectly mark Boucher Creek as Open space. It is Boucher Creek Conservation Area.
	Representation Merit and Impact
	1. Council's analysis of rural land illustrates that there is significantly more land suitable for low density residential/rural living development that is required to meet development. The interim planning scheme currently has sufficient land zoned Rural Living to meet conservation growth projections. This land is not within an identified preferred rural residential expansion area or meets the important attributes for rural residential development. 2. 	1. Limited exemptions- covers certified forest practises plans (clause 6.3.2 b) and Landcare activities for conservation and weed removal but not if it's within 30m of a watercourse (clause 6.3.1 g). In reality most FPPs and Landcare activities include watercourses, therefore it would not be exempt and a permit would be required.
	2. Rural Resource zone use table - prevents plantation forestry on prime agricultural land yet clause 10 of Prime Agricultural Land Policy recognises in certain instances it is appropriate. Recommends that this use be discretionary.
	3. E7 Scenic Management Code - plantation forestry singled out as the only non exempt tree crop, yet there are many other types of tree crops.
	4. E7 Scenic Management Code - requires forestry operations to comply with forest practises code. This is a legal requirement, so it is to be mentioned in the scheme.
5. E8 Biodiversity Code - Works under Forest Practises Act 1985 should be listed as a general exemption under E8.4.1.	
6. E8 Biodiversity Code - adoption of IBRA bio-regions, or habitat recognised as important in Threatened Species Recovery Plans would be better than Priority Habitat.

	Relbia and Glenwood Road Specific Area Plan - should be removed. Detailed report supplied.
	Representation Merit and Impact
	The Council disagrees with deleting Relbia and Glenwood Road Specific Area plan. SAP to remain and retain 4ha minimum lot size. Relbia has infrastructure constraints, such as the width of Glenwood Road that has determined the density for the area. The 4ha minimum lot size also preserves the future capacity of the area for urban expansion. (refer Representation 38)

	Zone of 188 Outram Street, Summerhill- Current zone Environmental Living. Request Low Density Residential zone. Reason to maintain consistency for mapping, scenic values can be protected by codes rather than zone, better integration of uses with urban area, site capable of being serviced. See also representation number 5.
	Representation Merit and Impact
	Both the Environmental Living and Low Density Residential zones allow for subdivision. The outstanding issue that requires resolution, regardless of which zone is applied to this land, is achieving adequate frontage to a road.
Modifications/Actions	
No change, retain Environmental Living zone.

	Zone of 1 Connector Park Drive, Kings Meadows - use range and development criteria of zone in Interim Planning Scheme significantly reduced compared to old scheme. Impact:
	1. Height - reduced from 13m to 10m
	2. Streetscape - PR requires not more than 5 spaces be located between building and primary frontage. This effectively precludes any further development.
	3. Landscaping - large site, acceptable solution too onerous to meet. AS means that the site would need 111 trees of 10m height to comply.
	4. Car parking and Sustainable Transport Code - very onerous for existing development.
Representation Merit and Impact	
1. Under the previous scheme the Connector Park area was located within a special purpose zone so it could be developed for a particular purpose. That is no longer relevant, and the area is best characterised as Light Industrial. This is the zone that has been applied.	
2. Clause 24.4.2 P2 Amend to remove 'not more than 5 spaces in front.'	
3. Clause 24.4.4 There is a performance requirement option that allows consideration of alternative forms of landscaping. The Criteria is considered acceptable and the example sited is not typical.	
4. Agreed. Recommend that the Code be reviewed.

	<ol style="list-style-type: none"> 1. Concerned interim planning scheme finalised before Regional Land Use Strategy was finalised. 2. Interim scheme has deviated from strict interpretation of Solicitor General's advice for active rezonings. 3. Interim scheme does not fully comply with regional provisions. 4. Interim scheme does not support people wanting to live a rural lifestyle. There should be greater use of Rural Living and Environmental Living zones. 5. Inadequate land clearance controls. Need to be tougher like mainland standards. 6. Open slather Rural Resource zone won't resolve land use conflicts, especially over forestry. Rural Resource zone purpose needs to better reflect the diverse character of the zone. Tourism needs more priority. 7. Massive setbacks for residential users in the rural resource zone. 8. Many unjustifiable exemptions for forestry. Forestry should be discretionary. 9. Inadequate use of Environmental Management zone. 10. Inadequate scenic protection measures - not enough areas of high value covered. Need tourist corridors including roads to tourist destinations needs to be included. 11. Inadequate mapping for priority habitat and associated biodiversity code. 12. Inadequate protection of acid sulphate soils. 13. Plantation forestry erroneously regarded as agriculture. 14. Flood prone mapping probably inadequate, inaccurate and under mapped. 15. Zones for rural living and environmental living do not solve problems with building a dwelling in rural resource zone. 16. Rural living zone allows Rural Resource but does not consider 200m setback from sensitive use. 17. Onerous requirements for living in rural areas. 18. Lack of salinity code 19. Rural salinity and private timber reserves should be mapped. 20. Interim scheme doesn't adequately address climate change. 21. Need aboriginal heritage provisions. 22. Need consistent approach to utilities zone for roads.

	<ol style="list-style-type: none"> 1. Incorrect. Strategy was in place well in advance of planning scheme being finalise. 2. This is disagreed. The Council has sound strategic basis for its zoning which has been endorsed by the TPC. 3. Acted on direction from TPC to correct typos. Some changes have occurred to non statutory mandatory regional provisions where they have not been relevant to Launceston's circumstances. Other drafting errors have been identified and will be corrected. 4. The Council disagree. Significant areas of Rural Living have been zoned throughout the municipality. 5. There's parallel legalisation, the Forest Practices Act. There is no benefit to duplicating permit and approval requirements. 6. The Council disputes this. There are objectives, use table of requirements and so forth. 7. Clause 26.4.1 It is an acceptable solution only. There is a performance requirement available for variations. 8. Disagree. Parallel permit and approval process under the Forest Practices Act. 9. Environmental Management zone is applied to reserves and significant management areas 10. 1. Duck Reach Power Station - Currently Recreation zone. This prohibits Utility Services (major). No acceptable as denies this use from occurring, when that was what the site was designed for.
2. Rural Resource zone - clause 26.1.6 - provision is a significant impediment to wind farm development and other rural activities such as grain storage facilities and rural processing facilities. Suggested wording supplied.
3. Clause 26.4.1 - significant impediment to wind farms and other facilities that are tall. Suggested wording supplied.
4. Clause 4.1.3 - suggest using site coverage instead of curtilage in development standards like 29.3.1 and 29.4.1.
5. Clause 5.4.1 - There is a move towards privately managed infrastructure, eg irrigation districts, and minor utility providers. Exemption may be redundant given exemptions listed under other acts.
6. Clause 5.5.1 - This includes a place or precinct listed in the heritage code.
7. Clause 6.2.1 and 6.2.2 - attempts to limit existing exemptions for utilities but the nature of the qualification only comprehends ownership, yet there are an increasing number of private utilities.
8. Clause 6.2.4 - minor upgrades not adequately qualified.
9. Clause 29.3.1 - Reserve Activity Assessment is a redundant standard.
10. Clause 29.4.1 use standards A1 – allows unidentified management plan which has effect of devolving decision making to third party. Recommend use of Management Plan or Reserve Code of Practise instead.

Code does not allow drainage infrastructure on roads to cross wetlands. No PR. Forestry should be defined as forest practices as defined in Forest Practices Act 1985. Small scale forestry would be exempt from a Forest Practices plan but then subject to this code. Suggest using vulnerable land approach under Forest Practise Code for clause E9.6.1 and E9.6.2. 10. Signage Code – Road and tourism signs and Tasmanian Visitor Information Signs need to be exempt in the code.

	1. Particular Purpose Zone 4 – University of Tasmania – Cultural and Public Purposes Precinct needs to refer to residential in the objectives. 2. Schedule 16 clause E16.6.1 A1 – Contradicts Particular Purpose Zone. Secondary and tertiary education should be allowed.
	Representation Merit and Impact
	1. Particular Purpose Zone 4 – agreed, review objective to include reference to residential. 2. Clause 16.6.1 A1 – The Council is prepared to consider this matter further. This use is covered by the funding deed for the flood levees, however; subsequent negotiations with the State Government have redefined the development which is allowable within this area and the Interim Scheme will need to reflect this (Refer representation 90)
	Modifications/Actions
1. Clause 35.1.7 Cultural and Purposes Precinct add new sentence at the end of the paragraph that states 'to provide for the development of residential uses associated with and supporting the educational activities within the Inveresk site.' 2. E16.6.1 A1 - no change until deed is changed.

	Green Specific Area Plan 1. Applies to subdivision only instead of all development various clauses are compared between old and new scheme. Clause F2.2.1 needs to be amended to read 'These provisions, despite any other provisions of the General Residential Zone to the contrary, apply to development in the specific area plan shown below.' 2. Clause F.2.3.1 – objective should apply more broadly to development. A1, P1 this clause to apply to subdivision, General Residential density provisions should not apply. Notation on plan should refer to F2.3.1 A4 not 15.10.6. 3. Clause F2.3.1 A2,A3, A4, A5, – should apply to all applicable development in SAP. There should not be any alternative available.
	Representation Merit and Impact
	Agreed. There have been some modifications to the code as a result of the translation from the old scheme to the PD1 template. It is considered that further modifications may better replicate the intent of the approved specific area plan

	1. Clause 3.9.1 – should not aim to manage environmental impacts from development by avoidance, minimisation or mitigation for all native vegetation. Not all is of conservation significance.
	2. E8.0 Biodiversity Code – no identification of how priority habitat was identified or why it is important. Why should E8.4.1 a) be exempt?
	3. P1 DPIPWE only uses offset principles as a guide, not a statutory requirement.
	4. No listing of what is and what’s not of conservation significance.
5. Forestry Code – should be removed as it unfairly prejudices land use based on the presence of a Private Timber Reserve which can be revoked at any time.	
Representation Merit and Impact	
1.Clause 3.9.1 agreed - delete ‘loss of native vegetation’	
2. E8.0 – agreed code needs revision. Project to review code is planned but requires funding.	
3. E8.6.1 P1 agree it’s too specific. Reword P1f and P2f to make less specific	
4. As per point 2.	
5. Forestry Code don’t support comment. Private Timber Reserves are applied to land to give land owner certainty and are typically long term. This approach is recognising that and is accepted by the TPC. The higher minimum lot size reflects typical character of those areas. No change.

1. Clause 26.2 – Resource Development. Needs Plantation Forestry included as P1 Use on non prime agricultural land. It's a legitimate agricultural use under Prime Agricultural Land policy.
2. Clause 6.3.1 needs to include forestry plantation on non prime agricultural land with a certified forest practices plan even it is within 30m of a watercourse.
3. Clause 26.3.1 P3b) assessment needs to include entire land parcel/title not just house site.
4. Clause 26.2 – Visitor Accommodation. Has fettering issues to agricultural land as a house. Needs to be subject to same rigorous assessment as a dwelling. Need to address issue of what happens if use is not profitable. Appears to be scope to subdivide off by strata, that loophole needs to be addressed.
5. No declared irrigation districts in Launceston, however many take off licences for irrigation. Need application for non agricultural uses should demonstrate current and future irrigation potential is not unreasonably reduced.
6. Clause 26.4.2 P1a) minimum lot size is counter productive and actually precludes achieving stated subdivision objectives. Example provided.
7. Clause 26.4.2 P1 suggests scope for staged approach to subdivision which will have adverse outcome. Example provided.
8. Clause 9.2.1 b) this suggests that if 'minor' and not meet for boundary adjustment and subdivision clause not met, it's prohibited. Many examples of boundary realignments not minor but aid agriculture.
9. Clause 9.4.1 our interpretation can override other decisions with regards to subdivision and approve or refuse any application at their discretion.

	CT 113048/1 – zoned Rural Resource. Subdivision proposal would be good outcome yet current provisions don't allow it. Provisions need to be more flexible.
	Representation Merit and Impact
	Agree that subdivision criteria need to be more flexible to allow certain situations where boundary realignments are proposed that will result in a positive outcome.
Modifications/Actions	
26.4.2 P1 add g) to P1 to say: A boundary realignment between lots may occur where the productivity of the land will not be materially diminished and; i) there is no net increase in lots; and ii) the lot size increases towards the minimum lot size and the other lot is not reduced to below the minimum lot size; or iii) lots below the minimum lot size will not be less than 2.0ha and will have the ability to contain and treat waste water and stormwater onsite.

12.1 Launceston Interim Planning Scheme 2012 - Report to the Tasmanian Planning Commission pursuant to Section 30J of the Land Use Planning and Approvals Act 1993...(Cont'd)

90	Representor
	Janelle Allison
	Issues
	1. UTAS Inveresk Site - Education and Occasional care prohibited. Needs amending to allow use to occur. Also to consider some residential use and consideration of the use of the mixed use zone.
	2. Newnham Campus UTAS – consider importance of connecting two sites via bike and walking paths and provide opportunities for local innovative industries and businesses to co-located on the campus.
	Representation Merit and Impact
	1. The Council is prepared to consider this matter further. This use is covered by the funding deed for the flood levees, however; subsequent negotiations with the State Government have redefined the development which is allowable within this area and the Interim Scheme will need to reflect this.
2. Noted. Scheme seeks to improve networks.	
Modifications/Actions	
Matters to be considered during the hearings.	

91	Representor
	Lionel Morrell, Tasmanian Ratepayers' Association of Tasmania
	Issues
	1. Issue with length of time to submit representation.
	2. PD4 provisions are not commensurate with existing development pattern of inner urban areas and should be excluded.
	3. Scenic Management Code – areas need reassessment.
	4. Need better regulation of taller buildings in central area
	5. Too generous towards signage, solar panels and air conditioning plants.
	6. Need strengthening of Kings Meadows and Mowbray business precincts.
	7. Absence of future road reserves and setback restrictions along road corridors unacceptable for growth planning.

12.1 Launceston Interim Planning Scheme 2012 - Report to the Tasmanian Planning Commission pursuant to Section 30J of the Land Use Planning and Approvals Act 1993...(Cont'd)

	Representation Merit and Impact
	1. Act requirement. Although will accept additional information on issues to help improve scheme.
	2. Agree that maybe this has been the case for some areas. Further analysis required to determine best approach. Much of inner residential area located within Urban Mixed Use zone, which is not subject to PD4 requirement.
	3. Scenic Management area acknowledge that needs further work. Project is needed and subject to funding.
	4. Current provisions effectively a translation from the old planning scheme. This is being reviewed by the Greater Launceston Plan. Modification will be done if required.
	5. Signage provisions are more strict in the Interim scheme. Remaining points are PD1 issues.
	6. Disagree. This has been considered in the Retail Hierarchy which has been incorporated into the scheme.
7. Oversight. Eastern bypass route should be reinstated. These future road reserves are being reviewed and at the conclusion of the review, any amendments required will be incorporated into the scheme.

12.1 Launceston Interim Planning Scheme 2012 - Report to the Tasmanian Planning Commission pursuant to Section 30J of the Land Use Planning and Approvals Act 1993...(Cont'd)

	Issues
	<p>15. E4.5.4 obliging Council to consider advice from relevant authority would appear to be requiring advice referred to in E4.5.3 to be a complete assessment. Suggest E4.5.3 should be statement of scope, E4.5.4 be written referral advice or assessment and permit conditions.</p> <p>16. E4.5.1 requires TIA to demonstrate compliance with PC however scope of TIA influenced by specific PC.</p> <p>17. E6 Car parking and sustainable transport code a TIA may be required. Is it also required to have a statement of adequacy from a responsible road authority prior to lodgement with the planning authority/</p> <p>18. E6.6.1 P1i) implies TIA is required rather than maybe required. Suggest reword.</p> <p>19. E6.4 referencing Tasmanian State Road Hierarchy problematic since there are no dates on the document other than the heading on several pages.</p> <p>20. E6.6.2 what does urban speed zones mean, since roads have several speed limits. Suggest defining as urban area being subject to speed limit of 70km/hr or less.</p> <p>21. E6.7.2 A1.1 clarification required for intent of A1.1. eg if 2 spaces in garage, 2 tandem in driveway forward of building line does this constitute non compliance?</p> <p>22. Lack of clarity with what is meant by vehicular access. Recommend clarified by use of clear width and constructed vehicle access.</p> <p>23. E6.7.2 neither A2.1 not A2.2 state that compliance with either AS2890.1 or Table E6.3 for dimension of car parking spaces is required. This could be address though inclusion of the word dimension in A2.1 d) or addition of e) and/or inclusion of word dimension in A2.2.</p> <p>24. A2.1 and A2.2 appear to pick and choose where compliance is required to the standard. Should include compliance with grades for parking and access too. Rewording required.</p>

12.1 Launceston Interim Planning Scheme 2012 - Report to the Tasmanian Planning Commission pursuant to Section 30J of the Land Use Planning and Approvals Act 1993...(Cont'd)

	Issues
	<p>25. E6.7.4 A2 Requires rewording so only applies after 20 spaces is required.</p> <p>26. E6.7.6 is silent on whether loading bays are to be provided on the subject land or if provision of loading bays is offset by on road facilities.</p> <p>27. Table 6.1 layout of headings and sub headings make interpretation difficult.</p> <p>28. Table E6.2 requires width of 4.5m for 7 m from road carriageway and 3m thereafter. It is recommended it be 5m at the boundary or the 7m setback, which ever comes first. Recommend taper be 6m. Recommend distance between bays be clarified.</p> <p>29. Table E6.5 note b) recommended that provision of 150mm kerb be included as this represents standard separation used in public streets.</p> <p>30. Table E6.6 is not a table and heading needs correction - E6.9 Parking Precinct Plans and all subsequent clauses renumbered.</p> <p>31. F1.0 extent of area incorrect. Plan not labelled.</p> <p>32. F2.0 included extract of the plan includes lots that do not exist. Extent of area shown is not the same as the original proposal. Resolution of concept plan F2.2 is poor. Lack of labelling of plans.</p> <p>33. F3.0 clarify of plan low.</p> <p>34. F4.0 Road connections not shown on planning scheme extract. Base plan shows strata boundaries and cadastral boundaries and makes no distinction. Recommend strata boundaries be removed.</p> <p>35. F6.0 no map showing extent of Relbia and Glenwood Road specific area plan.</p> <p>36. F8.0 no map showing forestry area specific area plan.</p> <p>37. Appendix 1 incomplete with several documents not having a date of publication. Car parking Australian standard should be AS2890 to cover full suite. The DIER guideline</p>

	<p>1. Australian Standards should not include years so that they do not go out of date and require a Scheme amendment;</p> <p>2. Clause 4.1.3. Planning Terms & Definitions table - No definition of Activity Centre provided</p> <p>3. General 4.1.3. Planning Terms & Definitions table - No definition provided for 'Ancillary Use' and development (eg Tennis Court lighting in a residential zone - is this ancillary and how should it be dealt with)</p> <p>4. General Exemptions - No provision for Home Child Care</p> <p>5. 6.3 Vegetation planting, clearing or modification - Vegetation removal is exempt under Clause 6.3.2 unless you are subject to anything in Clause 6.3.1. Therefore, if you want to prune vegetation for safety purposes it still isn't exempt if you're in Scenic Management Area. Minor exemptions need to be provided or we'll be taking DAs for pruning.</p> <p>6. 6.4 Fences - Security fences should be exempt in Industrial, Commercial areas, not only an airport and Port and Marine Zone.</p> <p>7. 8.0 Assessment of an Application for Use or Development - Clauses 8.1.2 and 8.1.3 place an unreasonable burden on Council to determine whether an application is valid or not at the time of (or shortly after) receipt. The process of initial assessment has become much more complex and does not promote a simplified planning system for the State. It is a consequence of very poor drafting in PD1</p> <p>8. 8.10.3 In determining an application for any permit the planning authority must <u>not</u> take into consideration matters referred to in clauses 2.0 and 3.0 of the planning scheme.</p>

	<p>9. 4.1.3. Planning Terms & Definitions table - The definition of Minor Protrusion is too broad.</p> <p>10. 4.1.3. Planning Terms & Definitions table - Definition of setback refers to building on a lot whereas in other zones including General & Inner Residential a setback is from a wall specifically.</p> <p>11. 10.1.6 The Interim Scheme is lacking a standard to implement zone intents to encourage multiple dwellings in the vicinity (within 400m) of district and local business/ activity centres and to discourage multiple dwellings at sites which are remote (further than 1km) from business/activity centres, or located within areas of recognised character, cul-de-sacs or affected by natural hazards.</p> <p>12. 10.4.2.15 Site Services A1.1 A minimum of 2.0m² per dwelling must be provided for bin and recycling enclosures and be located behind a screening fence. A1.2 Provision for mailboxes must be made at the frontage.</p> <p>13. 10.4.4.2 A1 - The minimum lot size for lots with slopes greater than 15% is not included in the interim scheme. This has been a long standing issue that will rear its head again if a minimum lot size for steep lots is not in the scheme.</p> <p>14. 11.4 - Questions the appropriateness of applying provisions of PD4 to the zone where development is generally more intensive</p> <p>15. 13.4.3 Subdivision - Typo - A2 Standard has been missed.</p> <p>16. 24.3.1 Emissions - This provision should also include reference to Clause E11.0 Environmental Impacts and Attenuation Code. Also should include 'sensitive' uses as opposed to 'residential' uses</p> <p>17. 24.4.5 Subdivision - Typo- Minimum Lot area under Light Industrial Zone 100m² and should be 1000m²</p> <p>18. 26.4.2 Subdivision - Changes recommended to improve the workability of this standard</p>

12.1 Launceston Interim Planning Scheme 2012 - Report to the Tasmanian Planning Commission pursuant to Section 30J of the Land Use Planning and Approvals Act 1993...(Cont'd)

	Issues
	<p>19 26.4.1 Building Location and Appearance (A2) & (P2) - The wording for setbacks is not consistent with other zones setback provisions. It should state setbacks from boundaries</p> <p>20. 26.4.2 Subdivision (P1) d) Error. No table specific to the zone is provided in the scheme</p> <p>21. E6.0 - There is no exemption for single dwellings under the car parking code, therefore a four bedroom house requires four car parking bays.</p> <p>22. P1 of E6.6.1 is too onerous.</p> <p>23. Table E6.5: Pedestrian Access - Incorrect terminology. The number of Parking Spaces Required</p> <p>24. E6.6.2 Bicycle Parking Numbers. No definition provided for 'urban speed zones' which creates difficulties for Scheme implementation</p> <p>25. E6.6.3 Taxi Drop-off and Pickup Typo identified "dedicated". The requirement to provide a dedicated taxi space for "part thereof" the multiplying factor (50 car spaces) is considered to be an unreasonable and unnecessary provision.</p> <p>26. E6.6.4 Motorbike Parking Provisions - The requirement to provide a parking space for "part thereof" the multiplying factor (20 car spaces) is considered to be an unreasonable and unnecessary provision</p> <p>27. E6.7.2 A2.1 vs Clause 10.4.2.7 - Inconsistency in requirements in respect of ability to turn on site for four vehicles on site</p> <p>28. E6.7.3 Car Parking Access, Safety and Security - Typo – Spaces missed. '20parking spaces'</p> <p>29. E6.7.4 Parking for persons with a Disability - The requirement to provide for 20 spaces and "part thereof" is considered to be an unreasonable and unnecessary provision.</p> <p>30. E6.7.6 - Typo – E6.7.6 should be E6.7.5</p> <p>31. Table E.1 - Clarify how the requirement for bicycle parking for residential uses is determined.</p> <p>32. Need a net floor area definition</p> <p>33. It is suggested that the E4.0 Road and Railway Assets Code should only apply to State Roads</p> <p>34. No definition is provided for Limited Access Road.</p>

	Issues
	<p>35. E4.7.1 Development on and adjacent to Existing and Future Arterial Roads and Railways - This provision applies to new road works, buildings, additions and extensions, earthworks and landscaping works; and building envelopes on new lots; and outdoor sitting, entertainment and children’s play areas. It is suggested that it apply only to development of new sensitive uses.</p> <p>36. E4.2.1 - Suggested re-wording to improve application of this standard</p> <p>37. E4.7.1 Development on and adjacent to Existing and Future Arterial Roads and Railways - It is considered that the following performance Criteria is unreasonable and unnecessary: P1 c) ensure that additions or extensions of buildings will not reduce the existing setback to the road, railway or future road or railway...</p> <p>38. Figure E4.7.4 Sight Lines for Accesses and Junction - This diagram is not legible</p> <p>39. E5.2.1 This code applies to use or development of land: ... ii) less than the height indicated on the coastal inundation risk height map; or ... There is no Map provided for the coastal inundation risk height</p> <p>40. E5.6.1 Flooding and Coastal Inundation - There is no Acceptable Solution provided which contradicts the exemption provided at E5.4(d).</p> <p>41. Acceptable solutions for the provision of hazard management areas for habitable buildings (E16.2.1 & E 1.6.3.1) - The requirement for Part 5 Agreements to be registered on the titles of neighbouring properties in order to manage hazard management areas needs to be reviewed as it is considered to present an unreasonable and unnecessary impediment to development.</p> <p>42. E7.3 definition of terms - No clear designation of 'Tourist route'.</p> <p>43 This Code applies to all use and development of land for subdivision. The wording of this provision should be changed to make it clearer that it only applies to subdivision (and the applicable use associated with the subdivision) to clarify that a change of use or development (e.g. construction of a building) is not subject to the Code. Typo – include 'General' Residential.</p> <p>44. Vegetation removal is exempt under Clause 6.3.2 unless you are subject to anything in Clause 6.3.1. Therefore, if you want to prune vegetation for safety purposes it still isn't exempt if you're covered by the Local Historic Heritage Code.</p>

	Issues
	<p>45. E13.0 - No mention of permits being required for works to the exterior of heritage buildings</p> <p>46. E13.5.1 Alternative Use of heritage buildings - The name of this provision is not reflective of the intent of the provision.</p> <p>47. Table E13.2: Local Heritage Places Outside Precinct - The heritage list is missing 2 strata titles</p> <p>48. Coastal dune system - Typo - incorrectly labelled as E15.1. Should be E14.1. Additionally, the figure is pixelated and therefore difficult to interpret.</p> <p>49. E14 2.1 part a) - The application of the code is incorrectly referenced or incorrectly mapped</p> <p>50. E14 .0 refers to the code not applying to Code E17 - Invermay/Inveresk Flood Risk Area. This Code is actually Code E16 and E17 is the Gorge Management Area.</p> <p>51. E16.5 Invermay Flood Inundation Management Precincts (precinct 2 in table E16.5.1) - Typo – reference to ‘Riverside Residential’ rather than ‘Inveresk Residential’.</p> <p>52. E18.5.2 Design and siting of signage - Typing error for P3 – missing ‘must not’.</p> <p>53. E 18 - Definition of ground based sign does not provide for a directory sign.</p> <p>54.E18.6 Signage Development Classifications - Remove (d) from the Performance Criteria - Sign Code (Hanging Sign) Signage Development Classification</p> <p>55. There are no controls over the time before polling which an election sign can be erected.</p>

	Modifications/Actions
	<p>44. Suggest the inclusion of: f) removal of vegetation where it can be proven to the satisfaction of the Planning Authority, by an assessment by a qualified Arborist, that for <i>safety reasons where the work is required for the removal of dead wood, or treatment of disease, or required to remove an unacceptable risk to public or private safety, or where the vegetation is causing or threatening to cause damage to a substantial structure or building.</i> (from LIPS 2012 - Limited Exemptions - 6.3 Vegetation planting, clearing or modification - Clause 6.3.2 i).</p> <p>45. Include a development standard for works to the exterior of a heritage building</p> <p>46. Change name of provision from "Alternative use of heritage buildings" to 'Use of Heritage Buildings otherwise Prohibited'.</p> <p>47. Add the following strata titles to the heritage table - 148 St John Street (130523/2), 148B St John Street (130523/3).</p> <p>48. Change to E14.1-Replace figure with improved resolution version.</p> <p>49. Section E14.2.1 a) should be referencing the "flood prone" map layer on the planning overlays and not the "coastal inundation height reference map". The flood prone map is a combination of seal level rise mapping done by the Tasmanian Coastal Inundation Mapping 5 May 2011 and our own flood inundation modelling mapping. The "coastal inundation height reference map" currently (referenced is a grid reference map to be used for municipalities that do not have specific detailed mapping of the inundation venerable areas on their coastlines.</p> <p>50. Replace 'E17' with 'E16'</p> <p>50. Replace 'Riverside Residential' with ' Inveresk Residential'.</p> <p>51. Reword (b) to 'must not' engage in the repetition of messages or information on the same frontage.</p> <p>52. Height may be increased to accommodate multiple tenancies on the one sign</p> <p>53. Point (b) needs to be reworded to say minimum height. Remove PC (d) as it does not make sense.</p> <p>54. Requirement needs to be added for assessment in Performance Requirement. Insert text - insert before the letterings candidates may for the 60 days prior to the date of polling.</p>

	Indicate support for proposed Community Purposes zoning.
	Representation Merit and Impact
	Support noted.
	Modifications/Actions
	No actions required.

2) that the Planning Authority endorse the following table which includes additional matters identified by Council's Land Use Planning staff concerning the operation of the interim scheme:

Number	Issue
A	Clause number
	All maps
	Issues
	The maps contained in the document need reviewing with the aim of making them all legible and useable. This may require maps being enlarged to A3 size.
	Representation Merit and Impact
	N/A
	Modifications/Actions
	Review all maps in the document to ensure they are useable and legible.
B	Clause number
	All codes bar the Advertising Signage code and the Heritage Code.
	Issues
	Applications for signage only currently require assessment under each code. Only 2 codes have provisions relating to advertising signage (the Advertising Signage Code and Local Historic Heritage Code). To clarify and simplify operation of the scheme the relevant codes should specifically exempt applications for advertising signs.

	Modifications/Actions
	Replace 'or' with 'and' after 'if above ground floor...'
F	Clause Number
	15.4.2 Active Ground Floors
	Issues
	The requirement to have 80% glazing to all frontages is not practical for sites with multiple road frontages. The objective is to ensure that the 'primary' frontage is glazed or those that face retail strips, malls or avenues. This recognises that commercial buildings rear and side walls that are often blank for operational reasons.

O	Clause Number
	E8.0 - Biodiversity Code
	Issues
	The requirement to take a permit for removal of native vegetation is too broad, potentially onerous and difficult to enforce. The AS allows removal of vegetation in accordance with a certified forest practices plan. Under this level only removal of vegetation that is within areas of priority habitat should require a permit.

	Representation Merit and Impact
	N/A
	Modifications/Actions
That the Drivers Run Specific Area Plan be redrafted in accordance with Attachment 4 to this report.	
X	Clause number
	E8.0. Biodiversity Code
	Issues
	Subsequent to the Interim Scheme's notification period the property owners of 361 Lalla Road, Lalla has expressed concern with the inclusion of their property in the Code's Priority Habitat area and wishes to have the matter examined during the TPC Hearings.
	Representation Merit and Impact
	The representation has merit and should be considered by the TPC. The Biodiversity Code effectively duplicates the forest practices legislation and therefore, it has little role. For instance, under the <i>Forest Practices Act 1985</i> and <i>Forest Practices Regulations 2007</i> , if a property owner intends to undertake significant clearing of vegetation on their property they must develop and conduct the work in accordance with a Forest Practices Plan. Under the Biodiversity Code if a property owner has a certified Forest Practices Plan then the Council MUST issue a Permitted Planning Permit for the work.
	Modifications/Actions
That the property owner be invited to participate in the hearing process.	

12.1 Launceston Interim Planning Scheme 2012 - Report to the Tasmanian Planning Commission pursuant to Section 30J of the Land Use Planning and Approvals Act 1993...(Cont'd)

Graeme Kenny spoke to this item.

DECISION: 12/03/2013

RESOLUTION: (1):

Moved Alderman R L McKendrick, seconded Alderman D H McKenzie.

That the Recommendation be adopted, with the following changes to the table of representors:

- Representation 28 -

The following table:

	John Dent, PDA Surveyors
	Issues
	Zone of 171 Glenwood Road, Relbia (CT 22735/11). Currently zoned Rural Living. The zone does not follow the title boundary of the site. Request that this occurs.
	Representation Merit and Issues
	On the Council map it appears that the zone does in fact follow the title boundary.
	Modifications/Actions
	No change.

12.1 Launceston Interim Planning Scheme 2012 - Report to the Tasmanian Planning Commission pursuant to Section 30J of the Land Use Planning and Approvals Act 1993...(Cont'd)

is replaced by:

28	Representor
	John Dent, PDA Surveyors
	Issues
	1. 131 Glenwood Road, Relbia wants Rural Living zone to follow former contour line as per the previous planning scheme land not the subdivision boundary. Reasons land is suitable for development.
	2. Requests that Relbia and Glenwood Road specific area plan does not apply to the land. Reasons subdivision approved has many lots that are less than 4ha and the provisions would be restrictive.
	Representation Merit and Impact
	1. Agree. 2. Disagree. The specific area plan has the same impact on this land as other land within Relbia. The specific area plan is to preserve the opportunity for future urban expansion which needs to be preserved on this land as well given its location.
Modifications/Actions	
1. Modify Rural Living zone boundary to follow contour line as per previous planning scheme for 131 Glenwood Road, Relbia. 2. No change.	

- Representation 89 –

The name of the representor is to be changed from John Dent to Rebecca Green and Claire Gregg.

Property: 219 Alanvale Road, Newnham
Area of Site: 958m²
Zoning: General Residential
Existing Uses: Three multiple dwellings (under construction)
Classification: Residential - Multiple dwelling
Date Received: 1/02/2013
Deemed Approval: 12/03/2013
Representations: Three

PREVIOUS COUNCIL CONSIDERATION:

N/A

RECOMMENDATION:

That Council approves Development Application DA0025/2013 for extensions to Multiple dwellings at 219 Alanvale Road, Newnham subject to the following:

12.2 219 Alanvale Road, Newnham - Extensions to Multiple Dwellings...(Cont'd)

1. ENDORSED PLANS

The development must be carried out generally as shown on the endorsed plans as follows: (1) Site Plan - Drawing No. ALA0113-1/3, (2) Carport details - Drawing No. ALA0113 - 2/3 and (3) North West Elevation and Upper Floor Plan Unit 1 - Drawing No. ALA0113 - 3/3 drawn by M. van der Molen dated 11/01/13 to the satisfaction of the Council. Any other proposed development will require a separate application to and assessment by the Council.

2. LEGAL TITLE

All development and use associated with the proposal must be confined to the legal title of the subject land except construction of and access from approved access ways.

3. NO BURNING OFF

No burning of any waste materials generated by action on this approval to be undertaken on-site. Any such waste materials to be removed by a licensed refuse disposal facility (e.g. Launceston Waste Centre).

4. HOURS OF CONSTRUCTION

Construction works may be carried out between the hours of 7am to 6pm Monday to Friday and 8am to 5pm Saturday and no works on Sunday or Public Holidays.

5. DAMAGE TO COUNCIL INFRASTRUCTURE

The developer is liable for all costs associated with damage to Council infrastructure resulting from non-compliance with the conditions of the Planning Permit and any bylaw or legislation relevant to the development activity on the site. The developer will also be liable for all reasonable costs associated with the enforcement of compliance with the conditions, bylaws and legislation relevant to the development activity on the site.

6. PRIVACY SCREEN

A 1.8m high privacy screen must be erected along south-west side of the deck to ensure reasonable privacy for the adjoining property. The screen used to obscure a view must be:

- (a) perforated panels or trellis with a maximum of 25 per cent openings or solid translucent panels; and
- (b) permanent, fixed and durable.

7. BEN LOMOND WATER

The development must comply with Ben Lomond Water Certificate of Consent DA No. 13-022, which is attached to this permit.

12.2 219 Alanvale Road, Newnham - Extensions to Multiple Dwellings...(Cont'd)

8. LAPSING OF PERMIT

This permit will expire if the development and use is not commenced within two years of the date of granting of this Permit. The Planning Authority may extend periods referred to if a request is made in writing before this Permit expires.

Notes

Restrictive Covenants

- A. *Council does not enforce restrictive covenants that contradict the Interim Launceston Planning Scheme 2012. However, if the proposal is non-compliant with any restrictive covenants, those restrictive covenants should be removed from the title prior to construction commencing or the owner will carry the liability of potential legal action in the future.*

Other Approvals

- B. *This permit does not imply that any other approval required under any other by-law or legislation has been granted.*

Representations to Proposal

- C. *This permit has no effect until the expiry of the period for the lodgement of an appeal against the granting of the permit or, if an appeal is lodged, until ten days after the appeal has been determined by the Resource Management and Planning Appeal Tribunal.*

Appeal Provisions

- D. *Attention is directed to Sections 61 and 62 of the Land Use Planning and Approvals Act 1993 (as amended) which relate to appeals. These provisions should be consulted directly, but the following provides a guide as to their content:*

A planning appeal shall be instituted by lodging a notice of appeal with the Clerk of the Resource Management and Planning Appeal Tribunal.

A planning appeal shall be instituted within 14 days of the date the Corporation serves notice of the decision on the applicant.

12.2 219 Alanvale Road, Newnham - Extensions to Multiple Dwellings...(Cont'd)

Permit Commencement

E. *This permit takes effect 14 days after the date of Council's notice of determination or at such time as any appeal to the Resource Management and Planning Appeal Tribunal is abandoned or determined. If an applicant is the only person with a right of appeal pursuant to section 53(1b) of the Land Use Planning and Approvals Act 1993 and wishes to commence the use or development for which the permit has been granted within that 14 day period, the Council must be so notified in writing.*

Ms M Chledowska (Town Planner) was in attendance to answer questions of Council in respect of this Agenda Item.

DIRECTORATE MINUTES ITEMS**14 DEVELOPMENT SERVICES****14.1 Conferences, Conventions & Championships Incentives Policy 05-PI-013****FILE NO:** SF5075**AUTHOR:** Angie Walsh (Grants & Sponsorship Officer)**DIRECTOR:** Michael Stretton (Director Development Services)

DECISION STATEMENT:

To consider a revised Conferences, Conventions & Championships Incentives Policy (05-PI-013).

PREVIOUS COUNCIL CONSIDERATION:

Council Item 15.4 - 14 April 2008 - To consider adopting a policy to assist and encourage conferences, conventions and championships to the Launceston municipality - Decision: That the Conferences, Conventions & Championships Incentives Policy be adopted.

RECOMMENDATION:

That the revised Conferences, Conventions & Championships Incentives Policy (05-PI-013) set out below be approved:

PURPOSE:

To provide an incentive to encourage associations, corporate organisations and local/state government to host their conferences, conventions or championships within the Launceston municipality during the tourism off-peak and shoulder seasons.

SCOPE:

Does not include civic events, local community events or major public events.

POLICY:

All applications for conference incentive funds from Council will be assessed under this Policy against the guidelines below:

14.1 Conferences, Conventions & Championships Incentives Policy 05-PI-013...(Cont'd)

Eligibility

- The conference, or at least one major component of the conference, must be held in the Launceston municipality. There must be a minimum of 50 intrastate/interstate and/or international registered delegates/participants (not including partners and family members) who are staying a minimum of 2 nights in accredited accommodation;
- Only conferences, conventions and championships held in Launceston for the first time or those which have not been in Launceston within the last 3 years are eligible for funding under this program. Applications must be received no later than 90 days prior to the conference/convention or championship;
- The Launceston Travel & Information Centre must be utilised for information on accommodation, pre and post tours, partner programs or transport.

Amount available

01 May – 31 August: incentive of \$20.00 per delegate up to a maximum of \$15,000.

01 September - 30 September: incentive of \$10.00 per delegate up to a maximum of \$10,000.

No further payment or in-kind support (e.g. Event Sponsorship, Community Grant, road closure fees, hire of Council venues or Civic Receptions) will be provided beyond that detailed above.

Available incentive funding in any given year will be subject to budget allocation by Council for that financial year.

PRINCIPLES:

Council's organisational values apply to all activities.

					<p>The fundamental issue concerns the reference to the responsibility of Council Authorised Officers to enforce the provisions of the bill. It is considered that reference to Council Authorised Officers should be removed. Council have no interest in enforcing the ban given:</p> <ul style="list-style-type: none"> • Local government have limited resources to accept additional responsibilities • Local government is ill-placed to enforce the provision given investigation and evidence powers sit with the Minister (and are carried out by the EPA) • There are no synergies between this task and any other services currently provided by Council.

19.2 LGAT General Meeting - Form View on Motions Submitted...(Cont'd)

Ag Item	Pg No	Motion	Submitting Council	LGAT Comment	LCC Comment
					<p>Given this is a State Government initiative the regulatory arm should be the EPA. Council would be aware that local government supports the introduction of a state-wide waste levy. The in principle agreement (with the EPA) is for an automatic 20% transfer to the EPA to assist with enforcement of waste related issues such as litter and illegal dumping. The enforcement of the Plastic Bag Act is one of the enforcement responsibilities of the EPA.</p> <p>Although the draft bill appears to allow Councils to opt out of enforcement of the bill, the fact that local government is listed will result in public expectations of local government enforcement.</p> <p>Recommendation: That reference to Local Government being able to appoint Authorised Officers to enforce the provisions of the bill should be removed.</p>
