

To whom it may concern

Hi I am an adjoining land owner and think it would be good if our neighbour Micheal could build a dwelling at his property on Distillery Track for many reasons, one being that there would be people around and may stop people stealing wood etc of our land, another the more people up there the more we could all help to maintain the road and its also a lovely quiet area that would be great to see developed. I own [REDACTED] and one day would also like to be able to build a dwelling if possible.

Subject: Planning application- DA0/2014

We,as residnets/landowners of nearly 20 years welcome and support the proposed development. We feel it is a good utilization of the land,bringing a higher rate revenue to the council and more people into the area. This will also stop the continual abuse by non landowners and rubbish dumpers/wood stealers,illicit drug propogation,endangerment of fauna/flora and a refuse for stolen goods

To the General Manger

I [REDACTED] have no objections to Michael Essex obtaining permission for a single dwelling at 170 Distillery Track Nunamara, as in the time that Michael Essex has been in the picture with his presence and the locking of gates limiting access there has been a dramatic reduction in people up the area who generally have no reason or permission to be there! There has been less woodhookers, illegal dumping of rubbish and green waste and a lot less motorbike riders disturbing the peace. I have had nothing Stolen or damaged in the last 12 months and wish Michael all the best with his application

Regards Kevin Lloyd
